Response to Amendment

1. The reply received in the PTO on 7/29/02 has been considered a timely reply since applicant furnished a Certified Mail Receipt showing that the mail was deposited with the U.S. Postal Service on 7/22/02, and because the examiner failed to provide applicant with the format of a Certificate of Mailing in the last office action. In the future, applicant is advised to use the following Certificate of Mailing when any papers are mailed to the PTO. The following are suggested formats for either a Certificate of Mailing or Certificate of Transmission under 37 CFR 1.8(a). The certification may be included with all correspondence concerning this application or proceeding to establish a date of mailing or transmission under 37 CFR 1.8(a). Proper use of this procedure will result in such communication being considered as timely if the established date is within the required period for reply. The Certificate should be signed by the individual actually depositing or transmitting the correspondence or by an individual who, upon information and belief, expects the correspondence to be mailed or transmitted in the normal course of business by another no later than the date indicated.

2. The reply filed on 7/22/02 has not been entered because it is unsigned.
3. The reply filed on 7/22/02 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s):

The amendment to the claims filed on 7/22/02 does not comply with the requirements of 37 CFR 1.121(c) because the amendment is not accompanied by a marked up version of the claim(s) showing the changes made in the amended claims, with brackets indicating deletions and underlining indicating matter inserted into the claim(s). Additionally, the amended claims should appear on a separate page (i.e. separate from the substitute specification) and the amended claim(s) should include the word "amended" in parentheses after the claim number. Amendments to the claims filed after March 1, 2001 must comply with 37 CFR 1.121(c) which states:

(c) Claims.

(1) Amendment by rewriting, directions to cancel or add: Amendments to a claim must be made by rewriting such claim with all changes (e.g., additions, deletions, modifications) included. The rewriting

Art Unit: 3765

of a claim (with the same number) will be construed as directing the cancellation of the previous version of that claim. A claim may also be canceled by an instruction.

(i) A rewritten or newly added claim must be in clean form, that is, without markings to indicate the changes that have been made. A parenthetical expression should follow the claim number indicating the status of the claim as amended or newly added (e.g., "amended," "twice amended," or "new").

(ii) If a claim is amended by rewriting such claim with the same number, the amendment must be accompanied by another version of the rewritten claim, on one or more pages separate from the amendment, marked up to show all the changes relative to the previous version of that claim. A parenthetical expression should follow the claim number indicating the status of the claim, e.g., "amended," "twice amended," etc. The parenthetical expression "amended," "twice amended," etc. should be the same for both the clean version of the claim under paragraph (c)(1)(i) of this section and the marked up version under this paragraph. The changes may be shown by brackets (for deleted matter) or underlining (for added matter), or by any equivalent marking system. A marked up version does not have to be supplied for an added claim or a canceled claim as it is sufficient to state that a particular claim has been added, or canceled.

(2) A claim canceled by amendment (deleted in its entirety) may be reinstated only by a subsequent amendment presenting the claim as a new claim with a new claim number.

4. The substitute specification filed 7/22/02 has not been entered because it does not conform to 37 CFR 1.125(b) because it is not accompanied by a marked-up version of the original specification with brackets showing deletions and underlining showing insertions. The substitute specification must also include a statement that the substitute specification includes no new matter.

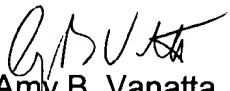

5. Since the reply filed on 7/22/02 appears to be *bona fide*, applicant is given a TIME PERIOD of **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction and to submit an amendment in compliance with 37 CFR 1.121 in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Amy B. Vanatta whose telephone number is (703) 308-2939. The examiner can normally be reached on Monday through Thursday.
